DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission (IDS) filed on 3/31/04 has been entered.

Allowable Subject Matter

Claims 1, 2 and 9-26 are allowed.

The following is an examiner's statement of reasons for allowance: a method for processing PFC that is used in a reduced pressure electronic manufacturing process, wherein the PFC is brought into atmospheric pressure through a vacuum pump, mixed with a reactive material, and a plasma is generated from the mixed gases to generate a polymer with the PFC and the reactive material.

Neither of the prior art of the record teaches or suggests generating a polymer from the PFC that is brought into atmospheric pressure and mixed with a reactive material by generating an atmospheric plasma from the mixed gases.

The closest prior art by Wofford et al (US Patent No. 5,750,823) requires a *suction pump 14* to maintain a proper pressure in the reaction vessel 12 when the device is utilized for treating

wastes emanating from a low pressure processing system, that is, Wofford et al lack the step of bringing into atmospheric pressure through a vacuum pump.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Parviz Hassanzadeh whose telephone number is (571)272-1435. The examiner can normally be reached on Tuesday-Friday.
